

Culturally and linguistically diverse carers in Australia: background report

Author/s: Carers Australia | **Year:** 2013 | **Publication type:** Report | **Peer reviewed:** | **Topic area/s:** General Care, Carers who are CALD

Reference: Carers Australia (2013). Culturally and linguistically diverse carers in Australia: background report, Carers Australia: 40.

Key Words:

carers, CALD carers, demographic profile

Research aim:

This report provides a profile of CALD carers in Australia, and overview of services, programs, resources and relevant policies and strategies for this group, a list of key issues for identified in the literature and case studies of approaches for culturally and linguistically diverse carers in Australia. The report could be used as a foundation document for further work in developing and prioritising actions to better support culturally and linguistically diverse carers

Results/Conclusion:

Key themes identified by CALD carers were barriers to accessing services and variation of quality and effectiveness of services

Implications:

Programs for CALD carers have been newly initiated and need to be evaluated for their effectiveness

Cultural Group(s):

CALD

Location of study:

Australia (national)
