

Factors affecting walking activity of older people from culturally diverse groups: An Australian experience

Author/s: Bird, Stephen Radermacher, Harriet Sims, Jane Feldman, Susan Browning, C.J. Thomas, Shane | **Year:** 2010 |

Publication type: Journal article | **Peer reviewed:** | **Topic area/s:** General Wellbeing, Physical Activity

Reference: Bird, S., H. Radermacher, J. Sims, S. Feldman, C. J. Browning and S. Thomas (2010). "Factors affecting walking activity of older people from culturally diverse groups: An Australian experience." *Journal of Sports Science and Medicine* 13(4): 417-423.

Key Words:

barriers to physical activity, CALD older people, built environment

Research aim:

Results/Conclusion:

Implications:

Cultural Group(s):

Location of study:

Victoria (Melbourne)

Age group:

60+

Number included in study:

N/A

Type of participants:

Research approach:

Type of data:

Secondary data sources used:

Specific scales or analytical techniques used:

Implications/ Recommendations:

Notes:
