

# Review of CALD dementia resources in Australia

**Author/s:** Hayward-Wright, N McKenzie, Elizabeth | **Year:** 2005 | **Publication type:** Report | **Peer reviewed:** | **Topic area/s:** Dementia

**Reference:** Hayward-Wright, N. and E. McKenzie (2005). Review of CALD dementia resources in Australia. Alzheimer's Australia Victoria, National Cross Cultural Dementia Network.

**Key Words:**

**Research aim:**

The aim of this project has been to ascertain what dementia and dementia related resources (books, leaflets/pamphlets, videos, DVDs, audiotapes, multi-media kits) are currently available in Australia and would be suitable for use by people from Culturally and Linguistically Diverse (CALD) communities; specifically Arabic, Chinese, Croatian, Dutch, French, German, Greek, Hungarian, Italian, Latvian, Macedonian, Maltese, Polish, Russian, Serbian, Spanish, Tagalog / Filipino, Turkish and Vietnamese.

**Results/Conclusion:**

The outcome of these activities has been the production of a catalogue of CALD resources (separate from this report) and a database of all CALD resources which will be for internal Alzheimer's Australia use only. The production of a printed catalogue for external distribution is not recommended as it will become immediately out of date and does not include other language material that is available, such as Korean and Portuguese.

**Implications:**

**Cultural Group(s):**

Arabic, Chinese, Croatian, Dutch, French, German, Greek, Hungarian, Italian, Latvian, Macedonian, Maltese, Polish, Russian, Serbian, Spanish, Tagalog / Filipino, Turkish and Vietnamese.

**Location of study:**

**Age group:**

**Number included in study:**

N/A

**Type of participants:**

**Research approach:**

**Type of data:**

**Secondary data sources used:**

**Specific scales or analytical techniques used:**

**Implications/ Recommendations:**

**Notes:**

Of little value to the current review - except to note that this has been done for a particular organisation
